Augusta Historical Theater Tour

Saturday, June 11, 2016

Tour Leader: Mike James, Wichita A's

Contact: ph 316-253-1414

Email: kmkjames@gmail.com

Subject: Augusta, KS Historical Tour – Wichita A's

Leave: At the Andover, KS Dillons parking lot—1:00 PM (SE corner of Kellogg & Andover Road)

The Wichita A's, Model A Ford Club will be traveling to Augusta, Kansas on Saturday June 11, 2016. The purpose of the club tour is to acquaint members with the numerous Augusta museums (Twisted Oz Motorcycle Museum, Kansas Museum of Military History and Augusta Historical Museum) as well as providing an opportunity for club members to celebrate the 81st anniversary of the opening of the Augusta Theater.

The Augusta Theater first opened in June 1935 and is one of the few remaining theaters in the United States that was built in the art deco style prior to 1940's. The Augusta Theater will be screening "It Happened One Night" which received the 1935 academy award for Best Picture. In addition to a Brick Street (main street in front of the theater) cook out of hot dogs and hamburgers, The Wichita A's will recreate the 1935 street view with Model A's parked out front of the theater to provide theater patrons an opportunity to visualize the street scene as it might have appeared in June 1935. The Wichita A's car club is scheduled to arrive on main street at approximately 3:30 PM with the cars remaining parked near the theater entrance through out the film screening. The movie "It Happened One Night" is scheduled to start at 6:00 PM and the public is invited to share in the 81st birthday of the Augusta theater by viewing historical cars and a historical movie.

Cost to attend:

\$10.00 per Wichita A member

\$25.00 per person for guest (this includes the donation to each museum plus the cost of the movie (\$6.00) and dinner (\$5.00))

Note: if you have a guest that would like to attend the movie only, your guest can pay six dollars at the theater window. If your guest desires to partake in the cookout, each guest can pay five dollars at the event.

Marbles & More Tour

Friday, August 26 thru Monday, August 29, 2016

We are going to visit the Washington Creek Lavender Farm Friday afternoon to learn how Lavender is grown. After the tour we will drive to Bonner Springs, KS.

We will visit Moon Marble Company in Bonner Springs Saturday morning. Moon Marble Company is one of the 8 Wonders of Kansas Commerce because it is the only store in the country where you can buy toy marbles, handmade marbles and watch them being made. After lunch we will drive on to Boonville, MO.

Sunday morning we will visit Warm Springs Ranch. Warm Springs Ranch is a breeding farm for the Budweiser Clydesdales, resting on 300-plus acres of lush, rolling hills in the heart of Missouri. Established in 2008, it features a mare/stallion and foaling barn, veterinary lab and 10 pastures, each with a customized, walk-in shelter. The facility is home to more than 70 Clydesdales ranging from foals to stallions. After this tour we will drive to Harrisonville, MO for the night. Monday is a travel day to return home.

Due to the reservations being made at Warm Springs Ranch, I need to know early as possible how many people will attend this trip. There will be a sign up sheet at the May club picnic and June club meeting.

Deadline for Cancellations and refunds at the July meeting.

PAST ACTIVITIES & TOUR

Men's Tour

The long-awaited re-scheduled Men's Tour finally took place the last weekend in April. Twelve Model A's, 19 members and 3 guests made the trip, spending two nights in Liberal KS. Friday began with a stop at the new Albers Finishing and Solutions plant near Cheney, where the group was given an interesting tour of this brand new state-of-the-art spray painting facility. The whole operation is computer controlled and is just ready to start production.

Rain kept engines, tires, and drivers cool until after lunch in Ashland KS, but ended before the next stop near Plains KS. The five miles of muddy road were worth the trouble to visit the **Warren and Susan Fox** collection of antique cars, trucks and tractors, with some later models and street rods thrown in. They treated the guys like royalty, with brownies and drinks and a grand tour of the collection. It took more than one of our guys to successfully start a 1-cylinder Rumley Oil Pull tractor, one of several in the collection.

Saturday morning the group headed to Hugoton KS, and the collection of **Greg and Sharon Morris**. Again the red carpet was rolled out, with a wonderful collection of 1932 and 1939 Fords polished and displayed (and a couple of Model A's), plus many unusual and rare Ford parts. After a buffet lunch arranged by our Hugoton hosts, and a visit to the shop of Wayne Wolfmeyer (an old-school body man and craftsman) to see a 1932 Ford Cabriolet under restoration, the afternoon was rounded out with a very interesting visit to the Stevens County Gas & Oil museum.

The last stop was the Mid-America Air Museum, which was thoroughly enjoyed by the guys, almost as much as the BBQ dinner at Billy's that evening. After a night's rest the group headed back to Wichita on Sunday morning. Special thanks to our western Kansas hosts, and to **Steve McLaughlin** for making the arrangements out west. **TR**

Denny Ellerman touring the spray painting facility.

Jim Clark putting **Dave Burke's** front bumper in the bed of the truck. It fell off when **Gary Agard** tried to pull him to get the pickup to start.

Darrell Ludlow & Bob Phye checking out **Warren & Susan Fox** collection of antique cars, trucks and tractors.

Greg & Sharon Morris collection of 1932 and 1939 Fords.

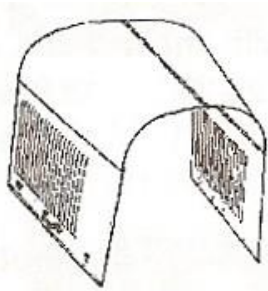

Tech Talk

TINY TIPS

Top & Upholstery

This applies to Model A coupes and sedans. With a complete restoration it has been a common practice to install the exterior fabric top first and then tackle the interior second. The **Model A Medic, Eric Weninger**, says, “this sequence is backwards.” Install the interior or at least the headliner first. Then if you have some puckers or wrinkles in the headliner you can reach in from the top side to help work out the problems. There was never any compelling reason to do the top first.

Hood

When restoring a hood or installing a new one, one should lubricate the hinge rods, not only to retard rust in the hinge segments but for smooth operation of the hood when it is opened. Many times I’ve witnessed an owner opening his hood and a very irritating binding noise resulted. The bare metal rod was installed, and then the hinge segments accumulated rust from either wet weather or wash jobs. In a few cases I’ve actually seen the hood bend in the hinge area when the hood was opened. The internal rust resulted in the rod seizing in the segments. If you opt for new stainless steel rods the problem is not so acute but rust can still accumulate in the hinge segments. Do not lubricate the rod or segments before the hood is painted. Lubricant and paint don’t mix.

I like to use **SUPER LUBE** synthetic grease available at **TRUE VALUE HARDWARE** stores, to lube the hood rods. This is clear, non-messy grease that contains a Teflon component. This is not critical, but something heavier than spray oil is needed to “stay on the job”. This lube also works well for many mechanical assemblies like brake pins, and the balls on the spark and throttle rods.

MAFFI Newsletter Article for April

Recently trustee Rob Mills compiled the following list of original parts that are needed for our displayed vehicles as we strive to improve our museum exhibits.

- Two restored 1931 gas caps
- One restored 1931 radiator cap
- Three restored 1928-29 gas caps
- Five sets of license plate clips
- Two sets of single-bulb headlight reflectors (original silver plating in very good condition)
- Two sets of two-bulb headlight reflectors (original silver plating in very good condition)

If you have one of the above items and would like to donate it to the museum, please contact Rob Mills at rmills@cass.net or 517.902.5852 (after 2:00 p.m. EST)

In addition to the original items listed above, we also need eleven (11) new tubes with metal valve stems for the 1929 Roadster Pickup and 1929 Town Sedan which are currently on display. These items were recently price checked at \$49.95 per tube with metal valve stem and \$19.92 for each long dust cover which totals to \$69.90 per tire (let's just call it \$75/wheel with tax and shipping). Perhaps it would interest an individual or a club to donate the money to purchase one tube or a whole set? If you would like to support the museum in this manner, please note it on the memo line of your check and mail to the Model A Ford Foundation, Inc., P O Box 95151, Nonantum, MA 02495.

As always, we thank you for your continued support of your Model A Ford Museum at the Gilmore.

ERA FASHIONS

Smart Summer Fashions

By Patti Jones

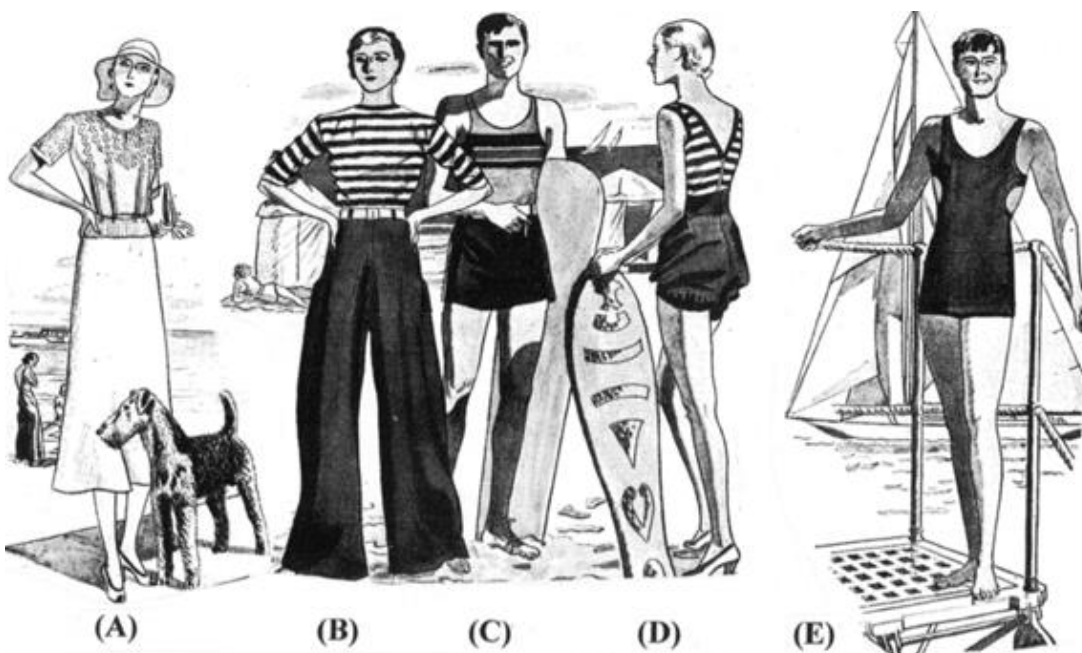

(Taken from Style Sources, April 1931)

The Bradley Company was a leading knit company during the Model A era. They produced out-of-door wear for the smart fashion conscious Model A'er. Vivid colors were seen in their beach and knitwear. The following could be seen on the shores of the Atlantic.

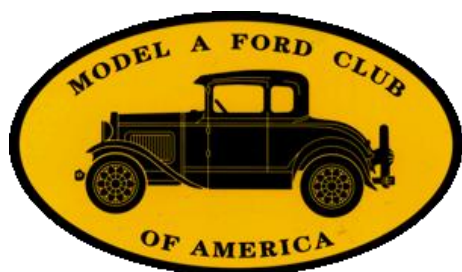

(A) A sweater blouse in white, with lace on the yoke and sleeves. It came with a matching knit skirt, and could be bought in light blue, mauve gray, and bisque beige. Note the spectator 2-tone shoes and wide brimmed beach hat.
(B & D) These ensembles for the beach were inspired from sailor's uniforms. In navy and white, the knitted one-piece bathing suit (D) has full knickerbockers-style trousers, zipper sun back and square neckline. Jersey is used for the fisherman's style shirt and pajamas in (B). The pajamas fit snugly around the hips and fall straight down to the ground giving the pant leg a distinct flare.

(C) This man's 2 piece suit is made in tan and brown. The suit has a trim cut top and the brief isn't tightly fitted around the legs, as in the other man's swimsuit (E).

(E) This is the common swim suit we normally see being modeled at fashion shows for men. At public pools, these suits were offered for both men and women! It has a "skirt" over the front of the suit to hide a man's "dignity". Being wool knit, the under short fits snugly around the legs for maximum comfort swimming.
